

- **SPRING DISTANCE KITS**
- **SPRING DISTANCE KITS**

WEITEC Spring Distance Kits ermöglichen eine individuelle Fahrzeughöherlegung an der Vorder- und/oder Hinterachse und kann somit auf Ihre besonderen Bedürfnisse abgestimmt werden. WEITEC Spring Distance Kits bieten:

- Mehr Bodenfreiheit
- Optimalen Einsatz bei PKWs mit häufigem Anhängerbetrieb
- Verbesserten Einstiegscomfort
- Niveaueausgleich bei permanenter Zuladung
- Verbesserung der Radfreigängigkeit
- Eine sportliche Offroad-Optik des Fahrzeuges

Das WEITEC Spring Distance Kit wird grundsätzlich mit TÜV-Teilegutachten geliefert (Ausnahme siehe Hinweis 25).

WEITEC spring distance kits include specially manufactured spacers, which are mounted in between the original springs or the spring retainer on the axle or chassis. By installing our SD-Kit you make your car more drivable on impassable terrain. A WEITEC spring distance kit consists of 2 pcs (left + right) for one axle only. WEITEC spring distance kits offer:

- More ground clearance
- Ideal for cars with trailers
- Improved access comfort
- Levelling system on permanent payload
- Improvement of the wheel clearance
- A sportive off road-look for the car

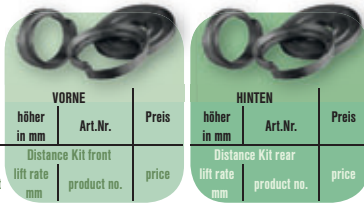

The WEITEC spring distance kit will be delivered with German TÜV Certificate (Exceptions please see reference 25).

ohne / without SD-Kit
